Cam-Dex Names Dan Krumme President

Kansas City, Kan. — January 31, 2020 — Cam-Dex Security Corp., a company focused on quality design, testing, and maintenance of integrated security systems, announced it has named Dan Krumme as its new President.

Dan Krumme is the fourth-generation family member to be involved in the business operations of Cam-Dex Security Corp., a well-known security systems integration company with offices in Kansas City, Kan., and St. Louis, Mo. He is replacing John Krumme, who will continue in the role of CEO.

Since joining Cam-Dex in March 2013 as Vice President, Dan Krumme has been instrumental in securing relationships with several national and international customers and helping to grow the company's portfolio in the Healthcare and Government markets. In addition, he led Cam-Dex's initiative to increase its product portfolio offering, specifically for security solutions for the Behavioral Health sector.

Dan Krumme began his security career with Koorsen Fire & Security in January 2011 after completing a summer internship. He spent two years with Koorsen Fire & Security where he served as the National Accounts Project Coordinator.

In his new role as President of Cam-Dex Security Corp., Dan Krumme will continue to help build the business, which has experienced significant growth within the last two years and increased its number of employees by 20 percent in 2019.

He and his wife Cori recently relocated to the Kansas City area, where the company's headquarters is located, after serving as Branch Manager for Cam-Dex's St. Louis office for the past six-and-a-half years.

About Cam-Dex Security Corp.

Founded in 1957, Cam-Dex Security Corp. is the Midwest's premier security systems integration company. The company offers years of experience in the quality, design, assembly, testing, installation and maintenance of integrated security systems. Cam-Dex offers a full line of products from the industry's leading manufacturers in the areas of access control, IP video, ID badging, intercom systems, and digital recording. An independent systems integrator, Cam-Dex is also a member of Security-Net, Inc., a group of systems integrators across North America that shares best business practices and collaborate on projects that span multiple geographical areas.
