

3xLOGIC Joins Sister Company PACOM at ISC West Highlighting Full Range of New Solutions

infinias access control, TRENDS AI-driven business intelligence, and Facial Recognition cameras are standouts for the year's biggest security event

WESTMINSTER, CO—03 April, 2019—[3xLOGIC, Inc.](#), a leading provider of integrated, intelligent security solutions, and a three-time [Deloitte Technology Fast 500™](#) winner, today announced the company's line-up of new and updated solutions to be showcased at the upcoming ISC West tradeshow in Las Vegas, 10-12 April, 2019. Joining together with sister company PACOM for the first time at the 2019 show, the 3xLOGIC line-up features:

The [infinias V6.6 Integrated Access Control & Video Management](#) solution adds support for serial readers and alphanumeric credentials. This new release will provide a flexible card number mechanism, support for alphanumeric cards, ability to support virtually any string, and support for large card numbers.

3xLOGIC's [TRENDS](#) is a cloud-based, artificial intelligence (AI) tool that ties exception-based reporting (EBR), video data, and third-party applications into an easy to use dashboard to provide a clean, simple visual snapshot of your business. Some of TRENDS industry-leading features: Instant Cloud Video, Traffic Counts, Line Queue Reporting, Location-by-Location Performance Comparison, Conversion Rates, Loss Prevention KPIs, Revenue vs. Employee Scheduling Reporting, and much more. Perfect for retail environments, from hundreds to thousands of locations. TRENDS offers a YouTube-like experience that enables the end user to instantaneously view any transaction of interest.

The [VISIX Facial Recognition](#) camera from 3xLOGIC is a special purpose, low cost 4MP camera for instant face detection, identification, and notification of persons of interest (POI). Using camera-based analytics and 3xLOGIC's exclusive server-based Facial Recognition application and mobile app, users can review captured facial images and choose POI to place on a watch list for notification locally via the mobile app.

[VIGIL V250 Series NVRs](#) are fully-integrated, intelligent video appliances. Pre-configured with VIGIL VMS software, these 1U NVRs represent a cost-effective video management platform that provides all the key functionality of VIGIL VMS with unrivaled ease of setup. The V250-16 design provides all the network components required to deploy your VMS. Not only are alarm, serial, and audio inputs built in, this recording appliance includes 16 embedded PoE ports for your IP devices.

And...COMING SOON, the new **VIGIL V11** release will feature a new, flat black UI for better viewing and many more new and upgraded features that will be announced in upcoming weeks.

To view the full range of 3xLOGIC and PACOM solutions and to receive any one of many available product demonstrations, please visit the **3xLOGIC/PACOM booth #30064** during ISC West, April 10-12, 2019, at the Sands Expo, Las Vegas, NV. ISC West is the largest converged security industry trade show in the US, with over 30,000 security professionals in attendance and more than 1,000 Exhibitors and Brands.

About 3xLOGIC

[3xLOGIC Inc.](#) has been a leading innovator in server and cloud-based security technology for 15+ years. The company is recognized for providing easy-to-use surveillance and business intelligence solutions that seamlessly integrate video, access control, and disparate data such as ATM, Point-of-Sale, analytics, and more.

3xLOGIC's video surveillance solutions are engineered for ease of installation, scalability and affordability combined with a managed services portfolio that enables integrators to effectively evolve from dealers to high-value strategic partners. Follow 3xLOGIC on [Facebook](#), [Linked-in](#), or our [Twitter](#) account, and read our latest news at www.3xlogic.com.
